

RN PROFICIENCY RECORD

**PART II
TELEMETRY**

0-No Knowledge 1-Limited Knowledge 2-Able to Perform Proficiently

	0	1	2		0	1	2
Medication Administration				CABG – Coronary Artery Bypass Graft			
PO				Carotid Endarterectomy			
IM				Femoral Popliteal Bypass			
Subq				Use of Cardiac Monitoring			
Rectal				Recognizing & Interpreting Dysrhythmias			
Topical				Obtaining 12 Lead EKGs			
IV Push				Cardiopulmonary Arrest			
IV Drip				Cardioversion			
Hyperal/Lipids				Defibrillation			
Intervention of IV Infiltration				Care of Patient w/ Permanent Pacemaker			
Isolation				External Pacemaker			
Standard Precautions				Set up & Interpretation of CVP			
Contact				Cardiac Lab Interpretation i.e.: CPK, isoenzymes & electrolytes			
Airborne				Cardiac Rehab/Patient Teaching			
Droplet				Use of Doppler			
Sterile Dressing Changes				Respiratory			
Cardiovascular				Pulmonary Edema			
Acute MI				COPD (Acute & Chronic)			
CHF				ARDS			
Angina				Pneumothorax			
Hypertension				Assist w/ Intubation/Extubation			
Cardiomyopathy				Care Ventilator Patients			
Abdominal Aortic Aneurysms				Tracheostomy Care			
Cardiac Surgical Patients				Drawing ABGs			

PART II
TELEMETRY Continued:

	0	1	2		0	1	2
Respiratory Cont.:				Care of Patient in Traction			
Interpreting ABGs				Cervical/Halo			
Maintenance of Arterial Lines				Skeletal			
O@ Masks/Cannulas				Bucks			
Ambu Bag				Medical/Surgical			
Nebulizer Set up				GI Bleed			
Oral Suctioning				Abdominal Wounds/Surgeries			
Nasal Suctioning				GI Tubes			
Endotracheal Tube				Renal Failure (Acute & Chronic)			
Endotracheal Suctioning				Suprapubic Catheters			
Inspirometer Instruction				Nephrostomy Tubes			
Care of Chest Tubes				T-Tube			
Use of Emerson Drainage				Care of Oncology Patient			
Use of Pleurevac				Liver Disorders			
Chest PT				Care of Patient w/ Immunosuppressed Deficiencies			
Care of Thoracic Surgical Patients				Alzheimer's Disease			
Instructing Deep Breathing, Coughing				Care of Patients w/ Burns			
Neurological				Hemovac			
Neuro Assessment/Vital Signs				Colostomy Care			
Assessment of L.O.C.				Ileostomy Care			
Glasgow Coma Scale				Wound Irrigation			
Acute Head Injury				Care of Diabetic Patients			
CVA/Tia (Acute & Chronic)				Glucose Monitoring Device			
DT's				Endocrine Disorders			
Spinal Cord Injury				Dobutrex			
Use of Seizure Precautions				Medications/IV Therapy			
Neurosurgical Pts – i.e.: Spinal Surgery, Craniotomy				Endocrine Disorders			
Pre-op				Dobutrex			
Post-op				Lidocaine			
Orthopedic				Bretylium			
Air Fluidized Beds – i.e.: Meniscus, Clinatron				Nipride			
Post Harrington Rod Insertion				Dopamine			

PART II
TELEMETRY Continued:

Medications/IV Therapy Cont.:							
Sodium Bicarb							
Atrpine							
Epinephrine							
Tridil							
Verapamil							
Heparin							
Lasix							
Phenobarbitol							
Vasopressin							
Amiodarone							
Dilatin							
Decadron							
Insertion of IV's							
Maintenance of IV's							
Infusion of Blood and Blood Products							
Infusion Pumps							
Heparin Locks							
Obtaining Venous Blood							
Special Tests/Procedures							
Pre/Post Cardiac Catheterization							
Pre/Post Angioplasty							
Thallium Stress Test							
Assisting w/ Lumbar Puncture							
Pre/Post Bronchoscopy							
Pre/Post Colonoscopy
